NOTES TO THE 1977 FINANCIAL STATEMENT

Note 1

The Statement of Receipts and Payments and the Statement of Bank Balances of the IUGS for the year ended December 31, 1977, have been prepared by the Treasurer in accordance with the Statutes and Bye-laws of the Union. Receipts and payments have been recorded in the books of account in the currency of the bank accounts used, and then converted to \$U.S. at year-end based on official ICSU rates of exchange for December 31, 1977.

The Statements do not reflect:

- the costs born by member countries in support of activities and operations of the Union;
- any unpaid accounts receivable or payable by the Union as at December 31, 1977.

Note 2

IGCP receipts come from one source: contract

funds from UNESCO allocated to IGCP projects. Total payments to IGCP projects, however, include the following: the contract funds from UNESCO, an annual contribution from IUGS of \$10,000, and the IUGS advances paid to projects to cover the 20% withheld by UNESCO until final reports and financial statements are submitted by IUGS.

Note 3

Member countries pay annual contributions according to their selected category of membership as outlined in the following table:

Category	1	2	3	4	5	6	7	8
Units* of contribution	1	2	4	6	10	15	25	50

*One unit is currently valued at U.S. \$200.00

Membership fees remain fixed for a minimum period of four years.

Note 4

In addition to contracts and membership fees, IUGS receives \$12,000 from ICSU as the apportioned amount of the UNESCO subvention to ICSU. IUGS pays a fixed contribution of \$10,000 per year to ICG (in 1977 only \$8,000 was paid, \$2,000 was paid early in 1978) and an annual subvention to ICSU as a member union.

Note 5

Subvention to COGEODATA comes from the Netherlands.

THE GEOLOGICAL CALENDAR 1979

The Canadian Society of Petroleum Geologists produced a Geological Calendar in 1978 to celebrate their Golden Anniversary. The reception was universally favourable — so much so that THE GEOLOGICAL CALENDAR for 1979 was produced. It contains a coloured picture for each month. Not only are the pictures beautiful by themselves but they portray fundamental aspects of geology. They are accompanied by notes which, with the picture, are lessons in geology worthy for any classroom from public school to University Graduate Studies.

The CALENDAR is an ideal gift for anyone — teachers, students, those interested in geology, and professionals.
